RIGHTS AND RESPONSIBILITIES

Anti-Bullying Policy

Bullying is an act of social violence and is related to other behaviors based on the abuse of personal and social power. The Elcho School District has adopted anti-bullying procedures (Policy 5517: Student Anti-Harassment & 5517.01 Bullying) to ensure that students are learning in a supportive, safe, and caring environment without fear of being bullied at school or during school-related activities. Students will be provided information on recognizing and preventing bullying, and shall be fully informed of the complaint processes.

Attendance

The Board of Education encourages a strong partnership between the home, school, and community. It recognizes a positive relationship between good school attendance and success in school and employment. If student learning and growth are to take place, parents/guardians, students and school personnel must recognize their responsibilities to assure regular attendance. Wisconsin State Statute Act 285, 118.15, requires all children between the ages of six (6) and eighteen (18) to attend school regularly.

Parent notification of any absence is required either in writing or orally stated to include: date and reason for absence. Students are responsible for making up any missed assignments or work while they are absent. For more information, please go to the district [website](#) to see Board Policy 5200: Attendance

It is the responsibility of the School District to notify the parents/guardians of the truancy and to provide information about the policy and procedures regarding attendance/truancy. It is also the responsibility of the District to contact the appropriate agencies and authorities as per policy rules and guidelines.

For more information see Board of Education Policy 5200: Attendance

Assessments

Parents may request a copy of policies regarding the participation in mandated testing. The parent may also receive information regarding the parental right to opt out of any testing, where applicable. The District will utilize the website <https://www.elchoschool.org> to disseminate information regarding the testing schedules for any state or district-required assessments. This information may be updated periodically throughout the year as information becomes available. The district will provide parents a copy of their child's achievement results for each of the state academic assessments.

Academic Standards

The Elcho School District's Board of Education has adopted the Wisconsin Academic Standards as the standards to which all of our curricula are aligned. The Wisconsin Academic Standards specify what students should know and be able to do in the classroom. Academic standards are important because they serve as goals for teaching and learning. Setting rigorous standards enables students, parents, educators, and citizens to know what students should have learned at a given point in time. Clear statements about what students must know and do are essential to ensure that our school offers opportunities to acquire the knowledge and skills necessary for success and prepare our students to be college and career-ready following high school graduation.

Wisconsin has academic standards for each content area. State law requires school districts to provide the parents and guardians of all students notice of the academic standards in math, science, reading and writing, geography and history that have been adopted by the school board and that will be in effect during each school year. Accordingly, the District academic standards that will be in effect in these specified content areas for this school year are listed below.

Wisconsin Standards For Mathematics (2021)	Wisconsin English & Language Arts Standards (2020)
Wisconsin Science Standards (2017)	Wisconsin Personal Finance Standards (2020)
Wisconsin Social Studies Standards (2018)	Wisconsin Model Early Learning Standards (Early Childhood and 4-Year-Old Kindergarten)
Wisconsin Standards for Information and Technology Literacy . (2017)	Wisconsin Physical Education Standards (2020)

For a complete listing of the Wisconsin Academic Standards, please go to <http://dpi.wi.gov/standards>.

Please contact: Alyssa Carlson, Director of Curriculum & Instruction, to review a copy of any of the standards in an alternative format.

Class Rank

Beginning with the 2023-2024 junior (11th grade) class, high schools are required to annually prepare a class ranking of pupils enrolled as of the completion of 11th grade, if there are at least 15 students. The purpose of the ranking is related to the "Guaranteed Admission Program" recently established for the University of Wisconsin system under state statute. Students are ranked on the basis of academic achievement as the sole criteria. Once the ranking is completed, students will be notified if they are ranked in the top 10 percent.

General Discrimination Complaint Procedures

Any complaint will be accepted either orally or in writing to the District that can be objectively understood as a request to investigate and make a determination about alleged discrimination under Title IX. The District will treat both complainants and respondents equitably, with presumed innocence until a determination is made at the end of the grievance procedures. The complete process can be found on the district website under Board Policy #2266 (prior to August 1, 2024) and #2244 (on or after August 1, 2024).

1. Evaluation- determine whether to dismiss a complaint or investigate it within 10 days of receiving a complaint.

2. Investigation - investigation completed (ie. collect relevant evidence) within 30 days determining the charges require one.

3. Determination - After the parties either submit responses to the evidence/description of the evidence, relevant information is considered and a determination is made within 10 days.

4. Appeal - a party filing an appeal of decision must be within five days of receiving determination.

Religious Beliefs and Customs

The Pledge of Allegiance or National Anthem shall be offered to students each day at a time established by the teacher or principal. No student may be compelled against the student's objections or those of the student's parent(s)/guardian to recite the pledge, or to sing the anthem.

In the spirit of tolerance, the District recognizes that students and staff members should be excused from participating in practices that are contrary to their religious beliefs unless there are clear issues of overriding concern that would prevent it. Written parent requests to excuse the student from participation in any activity is required. Students choosing not to participate in practices contrary to their religious beliefs may not be penalized in any manner and should be given appropriate alternative educational activities.

Students are allowed, with written permission of a parent or guardian, to be absent from school at least 60 minutes but not more than 180 minutes per week to obtain religious instruction outside the school during the required school period. The supervisor of such religious instruction is required to report monthly to the school the names of the pupils who attended such weekly religious instruction. (Policy 5223: Absences for Religious Instruction).

School and School District Performance Report

Annually by January 1, each school board is required to notify the parent/guardian of each student enrolled in the school district of the right to request a school and school district performance report. By May 1, each school board must, upon request, distribute to the parent/guardian a copy of the school and school district performance report that includes the information specified in the statute, or give the report to each student to bring home to his/her parent/guardian.

School Accountability Report

Each public school in the state is required by [section 115.385\(4\)](#) of the state statutes to provide a copy of the school's accountability report that is published by the Wisconsin Department of Public Instruction (DPI) to the parent/guardian of each student enrolled in or attending the school.

In addition, pursuant to [section 120.123](#) of the state statutes, each public school that maintains an Internet site is required to prominently display a link to the **school's most recent accountability report** on the home page of that school's website within 30 days after DPI publishes the accountability report.

Student Records

Student records are collected and maintained about a student from the date of entry in the District according to the provisions of Board Policy # 8330. Records collected include progress records, behavioral records, directory information, and law enforcement information. The principal of the student's school is responsible for the maintenance of these records. All records relating to individual students are confidential. Records may be made available to persons employed in the school which the student attends who are certified or licensed under State law, for legitimate educational purposes including safety interests.

Right to Inspect Pupil Records and Receive Copies: Any pupil 18 years of age or older, or any parent, guardian, or guardian ad litem of a minor will be given an opportunity to inspect the pupil's records within a reasonable time after the request and not to exceed 45 days from the date of the request. Minor pupils have the right to inspect progress records only. Copies of such records will be provided on request within a reasonable time period after inspection and at a cost of 15 cents per page.

1. Once a pupil has attained the age of 18, the consent required of and the rights accorded to the

parent or guardian of the pupil while a minor, shall thereafter only be required of and accorded to the pupil.

2. An adult pupil or the parent or guardian of a minor pupil on request may be allowed to inspect the behavioral records only in the presence of a person qualified to explain and interpret the records. A minor pupil may take part in this inspection as long as the parent or guardian is present.
3. The inspection of progress records by the minor pupil, adult pupil, parent or guardian must take place in the presence of a designated school employee.

Right to Challenge Contents of Pupil Records: An adult pupil, or the parent or guardian of a minor pupil, will be provided an opportunity for a hearing to challenge the content of both progress and behavioral records. The purpose of this hearing is to provide an opportunity for the correction or deletion of any inaccurate, misleading or otherwise inappropriate data, and to insert into these records a written explanation of the adult pupil or parent inspection of the content of such records, if they elect to do so. The right to a hearing does not extend to permit a parent or student to contest the grade given the student's performance in a course.

Directory Data: Information such as the student's name; address; email address, telephone listing; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; grade level; photographs; degrees, honors and awards received; and the name of the school most recently attended by the student shall be considered public information and may be released, unless parent(s)/guardian(s) or adult students refuse the release, in writing, on their own initiative.

Recruiter Access to Student Records: Parents of high school students or adult students who do not want their student's name, email address, address and telephone listing released to school photography salespeople, ring salespeople, institutions of higher education and/or military recruiters should contact the high school administration within fourteen (14) days of the start of school. The district must comply with such a request. Information cannot be released after this notification to administration without prior written parental/adult student consent.

Concussion and Head Injury Information

School districts are required by [section 118.293](#) of the state statutes to distribute a concussion and head injury information sheet to (1) each person who will be coaching a youth athletic activity and (2) each student who wishes to participate in the activity at the beginning of a youth athletic activity season, except as otherwise specifically provided. No person may participate in a youth athletic activity unless the person returns the concussion and head injury information sheet signed by the person (e.g., student athlete) and, if he/she is under the age of 19, by his/her parent/guardian. If the person does not return this signed information sheet, he/she cannot participate in the youth athletic activity.

If a student has already returned an appropriately signed information sheet to a school in connection with a youth athletic activity operated by the school during a given school year, the school is not required to distribute any additional concussion and head injury information sheet(s) to the same student in connection with the student's participation in any additional youth athletic activity that is operated by the school during that school year. The student may participate in additional youth athletic activities operated by the school during that school year without returning any additional signed information sheet(s) for those additional activities.

For purposes of this law, a “youth athletic activity” is defined as an organized athletic activity in which the participants, a majority of whom are under 19 years of age, are engaged in an athletic game or competition against another team, club or entity, or practice or preparation for an organized athletic game or competition against another team, club or entity. This includes school-sponsored sports as well as other organized youth athletic activities in the schools or community that meet the definition. A “youth athletic activity” does not include a college or university activity or an activity that is incidental to a nonathletic program.

Sudden Cardiac Arrest

Starting with any youth athletic activity season that begins on or after July 1, 2022, school districts and other persons who operate certain youth athletic activities have an obligation under section 118.2935 to distribute information about the nature and risk of sudden cardiac arrest during such activities.

The specific information that must be distributed includes:

- (1) The information about sudden cardiac arrest must be provided in connection with any youth athletic activity, as defined under section 118.293(1)(c), that is offered to persons who are 12 years of age or older.
- (2) At the beginning of the season of any covered activity (for seasons that start on or after July 1, 2022), the operator of the youth athletic activity must distribute the information sheet to each person who will be coaching the activity and to each person who wishes to participate in the youth athletic activity.
- (3) The information about sudden cardiac arrest must be included in the same information sheet that addresses the nature and risk of concussions and head injuries in youth athletic activities (see the previous item in this document, above).

Parental Notification of Rights under FERPA for Elementary and Secondary Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days of the day the school receives a request for access.

Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

Parents or eligible students who wish to ask the school to amend a record should write to the school principal (or appropriate school official), clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to privacy of personally identifiable information in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, medical consultant, or therapist); a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

PPRA affords parents certain rights regarding our conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

 5. Critical appraisals of others with whom respondents have close family relationships;
 6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
 7. Religious practices, affiliations, or beliefs of the student or parents; or
 8. Income, other than as required by law to determine program eligibility.
- *Receive notice and an opportunity to opt a student out of –*
 1. Any other protected information survey, regardless of funding;
 2. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or

screening permitted or required under State law; and

3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

•*Inspect*, upon request and before administration or use –

1. Protected information surveys of students;
2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
3. Instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

The Elcho School District has developed and adopted policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The Elcho School District will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The Elcho School District will also directly notify, such as through the U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation in the specific activity or survey. The Elcho School District will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales, or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.
- Any non-emergency, invasive physical examination or screening as described above.

Parent Notifications Related to Early Literacy- 2023 Wisconsin ACT 20

Wisconsin school districts are required to comply with 2023 Wisconsin ACT 20, which requires all Wisconsin schools to provide science-based early literacy instruction in both universal and intervention settings for students in grades 4K through 3rd grade.

Beginning in the 2024-2025 school year, school districts are required to administer reading readiness screeners to students in grades 4K through 3rd grade. The assessments will be administered twice a year to students in 4K and three times a year to students in grades 5K through 3rd grade.

Each time students are administered the readiness screener, written results must be provided no later than 15 days after the assessment is scored in an understandable format that includes all of the following:

- The pupil's score on the reading readiness assessment.
- The pupil's score in each early literacy skill category is assessed by the reading readiness

assessment.

- The pupil's percentile rank score on the reading readiness assessment, if available.
- The definition of “at-risk” and the score on the reading readiness assessment that would indicate that a pupil is at-risk.
- A plain language description of the literacy skills the reading readiness assessment is designed to measure.

Additional requirements of the 2023 ACT 20 include parent notification requirements that will apply to some students based on the student's individual needs and situation. For example:

- Dyslexia Guidebook
- Notices related to personal reading plans
- Notice of pupil promotion without completion of personal reading plan.

Each school district that operates with elementary grades is required to adopt and maintain an “Early Literacy Remediation Plan.” The plan must include a “parent notification policy” that, at minimum, addresses various parent notification requirements and be posted on the school district website.

Child Nutrition Programs and Free and Reduced-Price Meal Information

Elcho School participates in the National School Lunch Program and the Severe Need Breakfast Program. As part of the requirements for the federal meal programs, the district is required to inform and share with each household the application for free or reduced-price meals. Parents can complete the application online through Infinite Campus. If you need assistance completing the process with Infinite Campus or would like a paper copy mailed to you, please let the District know. An electronic copy of the application can be found at this [link](#). As a district we would like every household to complete the application as it does help the district with supporting families with meal prices as well as other areas of support within the district.

When your child participates in our healthy and delicious school meals program it will save your family time and money. At breakfast, all children are offered at least four food items from three food components (grain, fruit, and fluid milk) and at lunch are offered five food components (grain, protein, fruit, vegetable, and fluid milk). **For your child's breakfast to be a reimbursable meal**, they must take at least three food items, one of which is ½ cup fruit or vegetable. Breakfast prices will be determined annually by the school board.

For your child's lunch meal to be a reimbursable meal, they must take at least three different food components, one of which is ½ cup fruit or vegetable. Second meals, a la carte items, milk only, or meals that do not meet the requirements described above will be charged a fee, even if your child is eligible for a free or reduced meal price, per the federal guidelines the district must follow. Lunch prices will be determined annually by the school board.

For the 2024-2025 school year, meal prices are:

Meal	Reduced Price	Elementary	Middle/High	Adult/Guest
Breakfast	\$0.30	\$2.50	\$2.85	\$2.85
Lunch	\$0.40	\$2.80	\$3.10	\$4.10

Students are not allowed to have a negative food balance of more than \$20. If this occurs, students will be offered an alternative meal. Balance statements will be sent home to parents, but parents are able to find this information as well as add funds through the parent portal of Infinite Campus. To add money to

your child's food service account you can either send money to the school office or pay online through Infinite Campus.

If you have questions regarding food service, please contact: Michelle Briggs, Food Service Director at 715-275-3225 Ext. #1420 or email mbriggs@elchoschool.org or Rachel Lemanczyk, District Administrator at 715-275-3225 Ext 1080 or email at rlemanczyk@elchschoool.org.

School Wellness Policy

In compliance with the Federal school wellness policy implementation regulations, the Elcho School District is required to inform the public each school year about the content and implementation of the local school wellness policy and make the local school wellness policy and any updates to the policy available to the public. In meeting this requirement, you will find the district's wellness policy on the school website.

In addition, the results of any required triennial assessment of the district's school wellness policy will be made available to the public in an accessible and easily understood manner. To accomplish this, the district will use the Wisconsin Local Wellness Policy Report Card, to fulfill the triennial assessment and reporting requirements.

Special Education

All children with disabilities in the Elcho School District are provided a free appropriate public education. Special education and related services are provided to all children with disabilities from age three to age twenty-one who are residents of the Elcho School District. (Policy 342.1)

"Child with a disability" means a child who, by reason of any of the following, needs special education and related services.

- Autism
- Deaf-Blind
- Emotional Behavioral Disability
- Hearing impairment
- Intellectual Disability
- Orthopedic Impairment
- Other Health Impairment-
- Significant Developmental Delay
- Specific Learning Disability
- Speech or Language Impairment
- Traumatic Brain Injury

Child Find: The District identifies, locates, and evaluates all children with disabilities, regardless of the severity of their disability, who are in need of special education and related services, including children attending private schools, children who are not yet three years of age, highly mobile children such as migrant and homeless children, and children who are suspected of being a child with a disability even though they are advancing grade levels.

The District has an on-going special educational screening program to locate and screen all children who are residents of the school district and who have not graduated from high school.

The law also requires the school district's personnel to refer any child suspected of having a disability, which affects learning. Before any referral is made, however, the person making the referral shall inform

the child's parent(s) that the referral will be made. If a parent has a concern about their own child, they are encouraged to contact the classroom teacher, school counselor, or building principal. Although it is not required, a Teacher Assistance Team (TAT) meeting is called to explore alternatives that will benefit the child.

The TAT will explore all options including Title 1, At-Risk, referral for special education, or 504 (referral for disability not qualifying for special education). If it is determined that a special education referral is needed, the parent(s) will be informed of the referral and invited to participate in the full Individualized Education Plan (I.E.P.) team process.

The Elcho School District accepts and processes referrals of children suspected to have a disability. The District has written procedures for accepting and processing referrals. School personnel who reasonably believe a child has a disability are required to make a referral. Referrals must be in writing and include the reason why the person believes the child is a child with a disability. A referral may be made by contacting Rachel Lemanczyk, Director of Special Education, Elcho School District at 715-275-3225 ext 1060, by writing her at PO Box 800, Elcho, WI 54428, or by email at rlemanczyk@elchoschool.org.

The Elcho School District is committed to fulfilling the intent of the Americans with Disabilities Act. Parent Concerns - Communication Procedure

Communication is an essential component to an educational system. Parents and guardians are generally concerned with many aspects of their children's school programming. However, there may be times when specific situations surface that pose a need for information clarification. These situations could center on issues of attendance, discipline, School Board policies, course content or working relationships between students and teachers or administrators.

When such a situation arises, parents and guardians should use the following procedure:

- A. At the school building level, contact the person with whom you have a concern.
 - 1) Academics: If a student is having a problem in an academic class, contact the teacher for information to help assess the facts. If the problem has not been resolved after speaking with the teacher, contact the building principal.

- 2) Extra-curricular activities/athletic programs: If a student is having a problem in an extracurricular activity, contact the activity advisor. If the concerns remain, contact the building principal. If your concern is in regard to any athletic program, contact the particular coach. Should this not satisfy your concern, contact the activities director. Finally, if you seek further attention to this matter, contact the building principal.
- B. If satisfaction is not achieved from the above procedures, contact the district administrator.
- C. If you feel your matter requires continued consideration, you may request that the district administrator present it as a Board of Education agenda item.
